ABOUT US

Avani Institute of Design is a Centre of Excellence in Architecture and Design located at Kozhikode, Kerala. The institute was founded by some of the brightest minds in the fields of Art and Architecture and is led by a highly accomplished group of academic practitioners and professional designers. Since its inception in 2015 Avani has become one of the leading centres of Design education.

A photograph of an older man with glasses and a dark shirt speaking into a microphone. He is in the foreground, slightly to the left. In the background, several young people are standing, some wearing colorful, handmade costumes or masks. The setting appears to be an indoor space, possibly a school or a community center, with a plain wall and a doorway visible in the background.

CREATIVE MEANINGFUL HOLISTIC EDUCATION

Avani aims to expand into interdisciplinary Art and Design programs exploring new horizons in education, collaborative research and creative thinking.

Enhancing
Perception

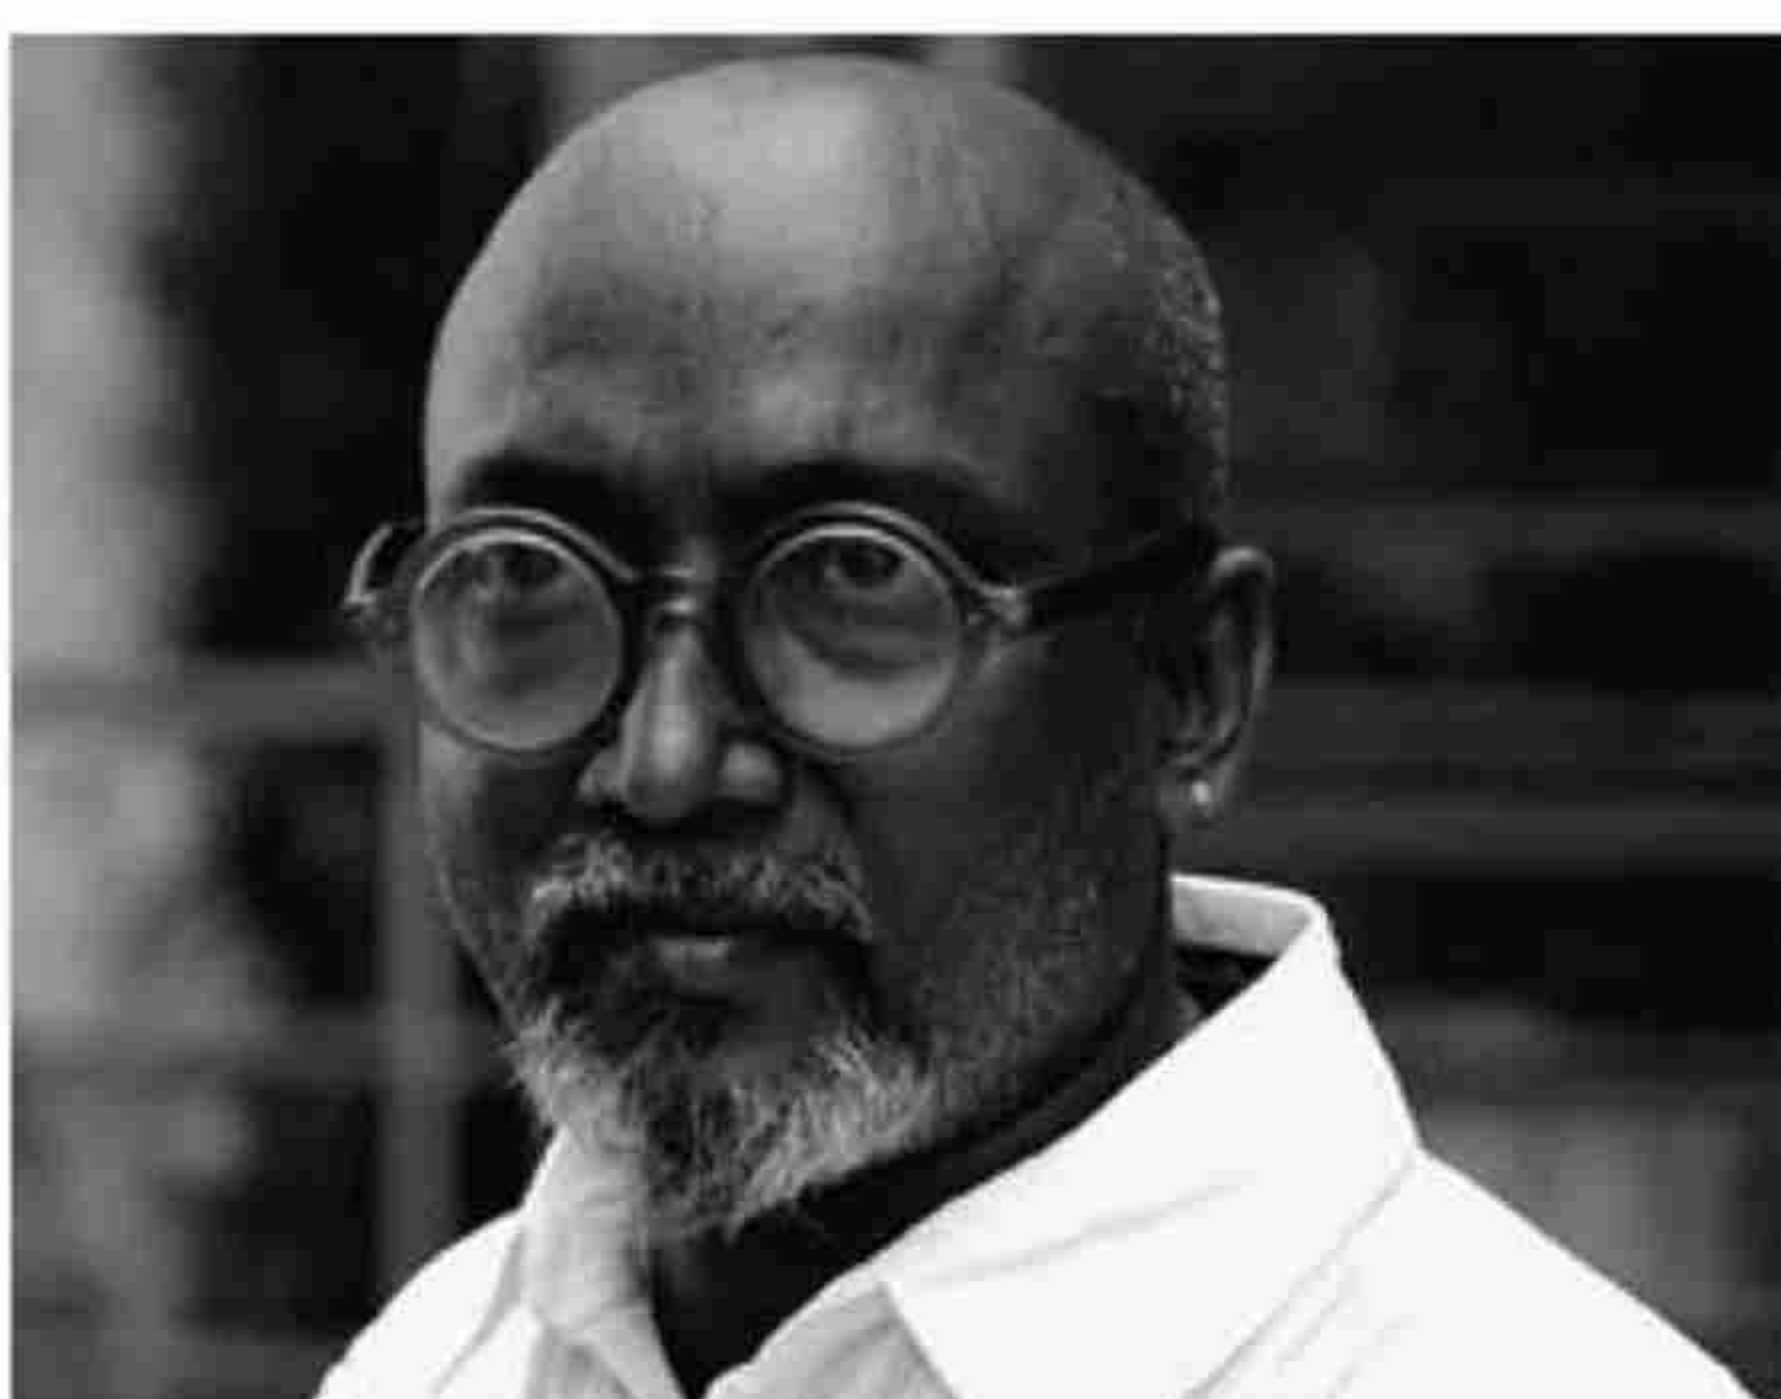

“Architecture and design do not exist in isolation but are closely integrated with the visual and liberal arts, social and cultural norms, philosophy and technological advances. Design has to evolve as a collaborative endeavor to engage with the unique challenges of contemporary society. Avani’s interdisciplinary curriculum and facilities empower the graduates with the critical thinking to confidently approach and tackle these concerns, to achieve their creative potential and become thought leaders in their respective fields.”

BACHELOR OF ARCHITECTURE UNDERGRADUATE PROGRAM

Avani's five-year undergraduate program in Architecture aims to develop comprehensive understanding of the concepts and methods for planning and design of buildings, settlements and habitats that are contextually responsive. Environmental sensitivity and social awareness is an integral part of the broad academic program. In addition to the core subject of architectural design the undergraduates are exposed to a range of disciplines like history and theory of design, sociology, climatology, liberal and visual arts which aim to mould creative intellectuals and responsible citizens, who will confidently tackle the ever evolving concerns of our built, natural and social environment.
